Software Developer

Dynamic and motivated Computer Scientist with solid programming skills, adept at algorithm implementation for real-world problem-solving. Eager to contribute resilient code and innovative projects and enhance my proficiency in the field. Thrives in collaborative environments.

Education:

Bachelor of Science in Computer Science

Technical University of Mombasa, Mombasa, Kenya (2025, April)

Skills:

- Data Science
- Machine Learning
- Frameworks: Django, Flutter, Flask
- Problem Solving and Algorithm Design
- Analytical and Communication Skills
- Quality Assurance
- Programming Languages: HTML, CSS, JavaScript, Python
- Web Development: React.js, Node.js
- Database Management: MySQL
- Version Control: Git
- UI/UX Design: Figma, Adobe XD

Projects:

1. Portfolio Website

Developed a personal portfolio website showcasing projects, skills, and resume and contact information using React.js

2. E-commerce Web Application

Collaborated on a full-stack e-commerce platform using React.js and Node.js, implementing user authentication, product catalog, shopping cart, and a secure payment gateway.

3. Data Science

Data science projects using python, exploring insights with pandas and matplotlib and summarized findings using a movies dataset.

Experience:

Web Developer | Localhost Wines | Nairobi | April, 2023 - November, 2023

- Assisted in developing and maintaining web applications.
- Participated in the design and implementation of new features.
- Worked collaboratively with the development team to meet project deadlines.

Languages:

- English (Fluent)
- Swahili (Native)
